INGENIOUS
DEVELOPMENTS

THOUGHTFUL HOUSING. SHARED PROSPERITY.

PARTNER BRIEF · FOR GRANT FUNDERS

Revitalization should lift a community up, *not price its people out.*

Ingenious Developments · Clayton, North Carolina · Founded 2024

The need

Working on distressed properties in Clayton, we watched families face being pushed out of the towns they had spent their lives in. Not because they wanted to leave, but because the housing stock deteriorated, rents elsewhere climbed, and no one was investing in their blocks.

What we do

Through Ingenious Homes, we acquire single-family homes and duplexes that would otherwise sit vacant or deteriorate further, rehabilitate them to a livable standard, and rent them at rates that serve the people who already live in the neighborhood. Our work rests on three commitments:

01 **Local contractors first.** Every rehab goes to contractors who live and work in the same county, so the money stays in the community.

02 **Attainable rents.** Rents a healthcare worker, a school bus driver, or a longtime resident can actually afford.

03 **Existing residents first.** When a rehabbed home is ready to rent, people already living in the neighborhood hear about it first.

A self-sustaining model

Our furnished-rental business, Ingenious Stays, has welcomed 40+ guests, most often traveling nurses, contractors, and other professionals, bringing skilled workers and local spending into our towns. We reinvest a portion of that income into the rehab work. Grant funding accelerates work we have already started; it does not keep the lights on.

Where we work

Communities where longtime residents are at risk of displacement and distressed homes are available.

Clayton · Johnston Co.	**Active**
Louisburg · Franklin Co.	Planned 2029
Wake Forest · Wake Co.	Planned 2029
Knightdale · Wake Co.	Planned 2029–30
Southeast Raleigh · Wake Co.	Planned 2030
Durham · Durham Co.	Planned 2030

How grant funding helps

We are seeking patient, mission-aligned capital, including grants from programs focused on community stabilization, attainable housing, blight remediation, and preservation.

PER PROPERTY
$80K – $180K
All-in: purchase, rehab, carrying costs, and reserves for one distressed home.

NEAR-TERM NEED
$250K – $400K
Acquire and fully rehab 2–3 homes in Johnston and Franklin counties, with operating reserves.

WHAT A GRANT ACHIEVES
A vacant or blighted house becomes a stable, well-kept home, rented at an attainable rate to someone from the neighborhood and rebuilt by local contractors.

What funders can count on

- **Full transparency.** Acquisition cost, rehab budget, actual spend, and rent set, documented and shareable for every property.
- **Long-term alignment.** We live here, and we are not building a portfolio to flip it.
- **Community impact reporting.** Who moved in, what they paid before, and what they pay now.

Help a neighborhood stay itself.

We respond to every inquiry.
